Full Stack Web Developer

Full Stack Web Developer and recent graduate from the University of Denver's Full Stack Web Developer boot camp. Self-motivated and adaptable to find the best solution and succeed with a diverse team to advance skills and optimize results. Creative problem solver with the end user in mind.

Technical Skills

Java, JavaScript, jQuery, React.js, Mongo Db, MySQL, RESTful APIs, CSS, HTML, Bootstrap, Node.js, Heroku, Git, CRUD, MERN, Photoshop

Work Experience

Major League Soccer Team Photographer Minnesota United FC; Golden Valley, MN

2013 – 2019

Collaborated with several departments within the club to achieve goals and covering pregame sponsor activations, in-game action, isolated player photos, and post-game events. I have also covered MLS stadium ground-breakings, press conferences and major team announcements. Over the course of a typical game day, I take over 3000 images, process those images with Adobe Lightroom and turn in over 400 professional level images the next day.

Owner Ryan Siverson Photography; Minneapolis, MN / Denver, CO

2009 – Present

Covered music, sports and corporate events with a strong work ethic and an eye for the unique perspective. I have covered some of the biggest concerts in the Twin Cities, Red Bull events, Roller Derby, Premier League and International Rugby and Major League Soccer and North American Soccer League clubs in action and behind the scenes. I have learned how to use social media as an effective asset and tool. Publications include Vita.MN, City Pages, The Growler.

Courier FedEx Express; Minneapolis, MN and Arvada, CO

2007 - 2020

Extremely fast-paced environment where details make the difference. Being able to convey great customer service and deliver on tight deadlines while creating a special customer experience is part of the job. Covering a busy area with constant changes and

challenges throughout the day and still achieving 11 years of safe driving. Self-motivated and surpassing productivity goals 6-12 hours a day while maintaining an accuracy rate over 99%.

Sales / Creative

2007-2010

Apple Computers; Roseville, MN

Working for Apple started out as a sales position and then expanded to so much more. Ongoing training lead to getting into hardware and software troubleshooting and Apple computer training through the One to One program. This was an extremely fast-paced, crowded, small store and teamwork was essential.

Education

Full Stack Web Development Certificate | University of Denver, Denver, CO | 2020

Networking / Java | Anoka Ramsey Community College, Coon Rapids, MN | 2003

Business Management | Metropolitan State University, Saint Paul, MN 2004

Interests

My interests include Programming, Videography, Off-roading and Photography. I have worked for several publications in Minnesota, and was one of the Team Photographers for the Major League Soccer club Minnesota United FC. I have taken up gardening and welding as hobbies this year while continuing to learn Java and Python.
